Features:

Samsung Noise Reduction System
NANOCELL™ material absorbs noises from HDD vibration and cooling fans to make the notebooks extremely quiet

Protect-o-Edge Casing
Ultra-durable notebook casing with carbon fiber strengtheners is designed to easily withstand the stresses and strains of everyday wear and tear.

Intel® Centrino® 2 Processor Technology
The P-Series features state-of-the-art Intel Centrino 2 processor technology, delivering unrivaled system performance, enhanced energy efficiency and advanced connectivity to keep you working longer.

2-Way HDD Protection System
Active and passive sensors protect the hard drive (and your valuable files) from shocks and accidental drops.

Trusted Platform Module (TPM) and Fingerprint Authentication
The P-Series delivers complete peace of mind with advanced system security. Based on the Trusted Platform Module for system and data encryption and secure biometric fingerprint authentication, it ensures your valuable information will remain safe from prying eyes—and you may never need to remember another password.

Desktop Expandability
The P-Series is compatible with Samsung's optional P-Dock docking station, which simplifies cabling and provides a "single-click" connection and easy access to a wide variety of ports, including up to 4 USB 2.0 ports, LAN, HDMI, legacy Serial port, e-SATA for external storage devices and DVI (Digital Video Interface) to deliver outstanding digital image quality on large displays and projectors.
